Jan 31-45
Wed.

Dear Mother & all,

I received your letter of Jan 20 today telling about Bernard & also the clipping about him. It's alright about not writing sooner because I know how hard it is for you to write at all. It was so hard for me to write the letter telling you what I had found out that day. Seems like I just can't write the right words expressing my feelings. I hope you have received the letter in which I told you everything that Censorship would allow. As I said before we can be thankful that he did not have to suffer. It made me feel better to know that.

I hope Irene can stay with you awhile & I'm glad that Glen got to be with you.

The clipping is very nice & from what you write so have the people. I wish I could thank them all.

I am sending a letter that the chaplain wanted me to send you along with my letter. He has been so good to me & feels so bad about Bernard. I know you must be wondering why it is the Catholic Chaplains that took me around etc. He is very active & played a lot of volleyball with us back at Carson so we became very good friends. Then when Bernard first came to see me he met him & liked him very much. Since then he helped us in any way he could. I know he means every thing he said in the letter.

Hope you are feeling better. Good night. Love Virgo
